PUMA™ SCBA

- The PUMA SCBA is a Cougar™ SCBA with a tight-fitting hood with a neoprene neck seal and is rated for entry into environments that are Immediately Dangerous to Life or Health (IDLH)
- No need for spectacle kits – the user can wear normal street glasses
- An SCBA designed for hard to fit users
- Hood is made from Challenge® NXT barrier fabric for excellent permeation resistance
- Lens is made from 10-mil FEP Teflon
- Factory-installed silicone nose cup reduces fogging and CO₂ build-up in hood
- First stage regulator has minimal moving parts, dramatically enhancing reliability while reducing maintenance costs
- Second stage regulator has compact, low profile; Survivair Air Klic™ fastening system; first-breath-on; and better downward vision for less chance of damage
- Regulator holder on waist strap allows regulator to be kept in stand-by mode
- Mighty-Light™ backpack is one of the lightest, easiest to use, and most comfortable backpacks in the industry
- 2216 PSIG, 30-minute aluminum cylinder
- Bell alarm
